Press contact

Today the European Commission announced a €6 million contribution to a vaccination trial in the Democratic Republic of Congo (DRC). The funding comes from the EU's research and innovation programme, [Horizon 2020](#), which supported the development of the new vaccine.

100 Days Mission

Delivering a vaccine in 100 days against the next Disease X would give the world a fighting chance to extinguish the existential threat of a future pandemic virus.

Solutions

Curb the spread of misinformation

Monitoring and Fact-checking

Economic Response

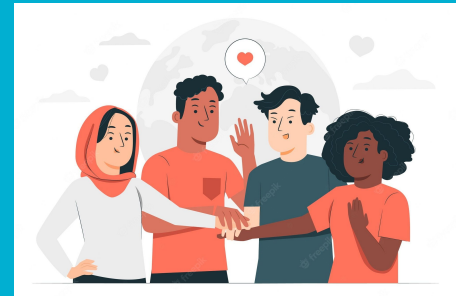

Educational Response

Solutions

Scale up pandemic preparedness measures

- Provide safe and effective vaccines
- Supporting EU health systems and the post-epidemic
- Helping EU countries financing their response to the epidemic
- Boosting european solidarity

Consequences

1 | Political: Misinformation and Geopolitical Tensions

Antivax protests are on the rise in Europe, but can they last? [COMMENTS](#)

Consequences

2 | Economic

- 5 trillion dollars
- Stabilization policies
- Cyclical fluctuations

Consequences

3 | Social

Children in a state of isolation

Increased screen time

Physical and sexual violence

Consequences

4 | Environmental

Positive aspects :

- Blue sky
- Reduction of greenhouse gas emissions
- Reduction of water pollution

Negative aspects :

- Waste generation
- Ecological imbalance

Question Time

What do you think of the way new pandemics will be managed?
