Introduction

- 1818 → 1883
- German philosopher, economist, and revolutionary
- Work on social inequalities and conflicts between the rich and the poor
- The Communist Manifesto and Das Kapital

Theory of conflict

The bourgeoisie, who own the means of production and hold economic and political power

VS

The proletariat, the working class, who sell their labor to survive.

Exploitation in the **Capitalist System**

Marx's vision for social revolution

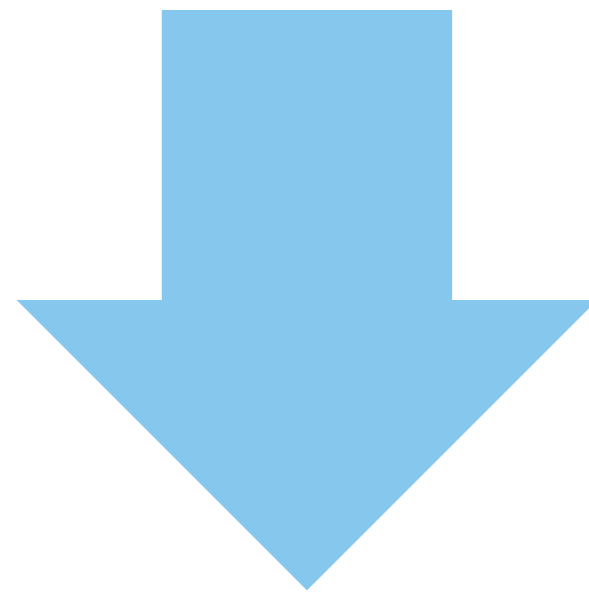

SOCIAL REVOLUTION = the best solution

Capitalism -> Communism

Proletariat

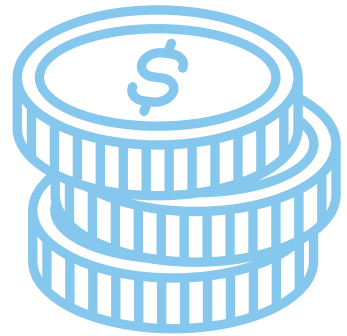

Bourgeoisie

Communist society :

- resources will be shared equitably.
- social relations will no longer be based on economic exploitation, but on cooperation and the collective good
- end of alienation: individuals would reconnect with their work, their community and their humanity.

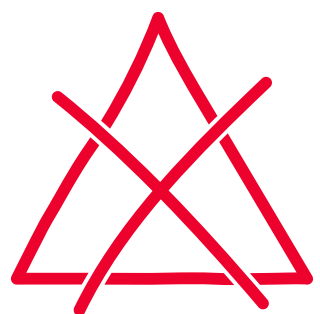

Critique of his thinking

Too much emphasis on economic factors.

Soviet Union -> abuses of power and lack of individual freedoms.

He never provided a concrete blueprint for a post-capitalist.

His legacy

- **redefined** the way we analyze
- **inspired** a lot of manifestation
- his critique remains relevant **today**

Karl Marx monument
in Moscow.

Conclusion

Karl Marx left an indelible mark on political, economic, and social thought.
